Renato Alves de Oliveira

Front-End Developer | Email Development | MJML | Selligent | React
| UI/UX
Portugal

Resumo

Front-End Developer with 15+ years of experience across web development, UI/UX, and digital communication. Currently at Porto Editora, I work at the intersection of design and engineering, building responsive, user-focused digital products and email solutions. My experience includes front-end development with HTML, CSS, JavaScript and React, as well as Email Development using MJML, Selligent and responsive HTML email. I also work closely with design teams and use Figma to translate visual designs into accurate, scalable implementations. Throughout my career, I have worked on projects focused on digital transformation, automation and process optimization, including: Digital Products & Front-End DevelopmentDeveloping responsive digital experiences with a strong focus on usability, performance and visual fidelity. Email DevelopmentCreating and maintaining responsive email templates using MJML and HTML, with attention to compatibility across email clients, including Outlook, and quality assurance before deployment. Digital TransformationLed the implementation of the Google for Education ecosystem for a major educational institution, helping streamline workflows for thousands of users. Automation & Process OptimizationUsing Python and scripting to automate repetitive tasks and improve internal development workflows. My academic background combines a degree in Management and Creation of Internet Environments, validated by the University of the Azores, Portugal, with a postgraduate qualification in 3D. This combination of design, technology and business allows me to bridge creative and technical requirements and turn them into practical digital solutions.

Experiência

Porto Editora

Front-end Developer

outubro de 2023 - Present (2 anos 11 meses)

Porto, Portugal

Developing digital educational products, working at the intersection of Front-End Development, UI/UX and digital communication.

Key responsibilities and achievements:

- Develop and maintain responsive interfaces using HTML, CSS, JavaScript and React.
- Develop responsive emails and email templates using MJML, HTML and CSS, with a strong focus on compatibility across email clients, including Outlook.
- Create and maintain email templates and digital communication solutions using Selligent.
- Translate visual designs and specifications into accurate and scalable implementations, using Figma as a reference throughout the development process.
- Perform email and interface testing and quality assurance, identifying and resolving layout, compatibility and rendering issues.
- Collaborate with designers and cross-functional teams to turn business requirements into functional and scalable digital solutions.
- Use scripting and Python to automate repetitive tasks and improve internal development workflows.

Grupo Tecla

Front-end Developer & Branding Management

março de 2023 - dezembro de 2023 (10 meses)

Porto, Portugal

Front-End Development and branding management, contributing to the modernization of the group's digital presence and ensuring that technical implementations remained aligned with the company's visual identity.

Key responsibilities and achievements:

- Developed and maintained responsive web interfaces.
- Implemented layouts and components with a focus on visual consistency, usability and performance.
- Bridged design, branding and development requirements to deliver cohesive digital experiences.
- Supported the evolution of the group's digital presence and communication channels.

Colégio Nossa Senhora do Rosário

11 anos 10 meses

Project Development Coordinator

dezembro de 2017 - outubro de 2022 (4 anos 11 meses)

Rio de Janeiro e Região

Led digital transformation and educational technology projects, working at the intersection of management, communication, design and technology.

Key projects and achievements:

- School Communication Digitalization: Designed and implemented a mobile application that replaced paper-based communication, reducing operational costs and improving communication between the school and families.
- Family-School Experience: Developed a solution that enabled teachers and staff to publish educational content and announcements in real time, improving access to information for parents and students.
- Access Control: Integrated magnetic card technology into the school's access management system, enabling automated student check-in and check-out with real-time notifications to parents and guardians.
- Google for Education: Led the strategic implementation of the Google for Education ecosystem, modernizing workflows and supporting thousands of users.

Designer

janeiro de 2011 - outubro de 2022 (11 anos 10 meses)

Rio de Janeiro, Brasil

Worked across graphic design, visual identity and web design, progressively transitioning from traditional design and publishing to digital experiences and web solutions.

- Created editorial, advertising and institutional materials.
- Developed visual identities for institutional projects and major school events.
- Designed web interfaces and digital communication assets.
- Managed the graphic production process, including file preparation, supplier coordination and quality control.

Computer Science / Robotics Teacher

janeiro de 2013 - dezembro de 2017 (5 anos)

Rio de Janeiro, Brasil

Taught computer science and robotics, focusing on technology, logical thinking and hands-on project development.

Martins e Câmara - Portugal

Designer

janeiro de 2009 - novembro de 2009 (11 meses)

Porto, Portugal

Developed visual identities and advertising materials for clients in the luxury and wellness sectors, with a strong focus on brand consistency and quality of execution.
