

Renato Alves

FRONT-END DEVELOPER

✉ alves.renato@gmail.com 📍 Porto, Portugal 🔗 linkedin.com/in/alvesrenato 🐙 github.com/alvesrenato

Front-end Developer with 15+ years of experience, specialized in building high-performance, accessible, user-centric interfaces — backed by a strong design background that ensures visual fidelity from first pixel to deploy.

ABOUT

Professional Profile

I work as a Front-end Developer, turning design into code with HTML, CSS, JavaScript, and React. Currently at Porto Editora, I build high-performance educational digital products, working closely with design teams in Figma to ensure visual fidelity without sacrificing sound engineering practices.

I'm a natural problem solver focused on clean code, performance, and user experience. My path spans cost optimization, process automation, and digital transformation — always with front-end as the final delivery point.
